

Calling All Power Plant Professionals

The BFP-3510 Big Shot® is the system of choice for hard deposits.

BFP-3510 – 10 HP Beast!

If you're ready for the ultimate surface condenser tube cleaning system, step up to the Big Shot. You want power? How about 10 HP! You want efficient? How about a two-gun pump for one or two-person operation! The maximum power of the Big Shot and the descaling effectiveness of our projectiles combine to make this a complete and effective system for even the toughest deposits. Just choose the right scrubber or brush for your application and let the cleaning power of the Big Shot's pressurized water do the rest.
