

# Clean Tubes With 90% Less Effort? You Bet!

The new BSL-50 Big Shot® Launcher Just made your job a whole lot easier.

## BSL-50 – Reduces Fatigue

Cleaning tubes can take a toll on you. That's why you need a brand new gun for your high volume tube cleaning jobs. The BSL-50's air assisted trigger requires an incredible 90% less effort for firing projectiles – what a difference when you have thousands of tubes to clean! An easy-to-attach, padded aluminum shoulder stock provides added leverage when you need it.

There's no bulky pressure gauge on the BSL-50. The simple "cleared-tube" indicator reliably shows when the projectile has exited the tube. But don't let all this comfort fool you – with a flow rate of up to 50 GPM, the BSL-50 Big Shot cleans tubes faster than ever.
